

Dual Entry Cord End Terminals

Eland Product Group **FCA**

Application

Dual Entry Cord End Terminals are designed to accommodate two cables terminating in the same sleeve, prior to fitting screw type terminal blocks or connectors. The crimped on dual entry cord end terminal then protects the exposed wire strands from damage from the screw, which results in a stronger connection.

Material

Tinned Copper

Dimensions

Eland Part Number	Cable Size mm ²	Colour	Pin Width mm	Entry Width mm	Total Length mm	Pin Length mm	Pin Wall Thickness mm	Entry Wall Thickness mm
FCEET2x0.5	2 x 0.50	White	1.50	4.7	15.0	8	0.15	0.25
