

# LJ6C Floor Box Modules – LSA Compatible

Eland Product Group **A8D**

## Application

These modules are used for either data or voice networks. Although suitable for both domestic and commercial properties the smaller dimensions make them suitable for installation into floor boxes or shallow dado trunking mainly used in commercial installations. They are shuttered to prevent dust entering the module, and allow for less bend radius in the back box to protect the cable. Termination can be made using LSA compatible tooling.

## Colour

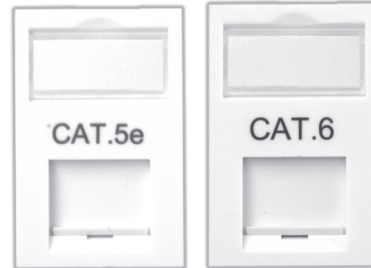

White

## Marking

Cat 5E or Cat 6

## Supplied with

Strain relief cable tie for cable protection.

## Description

Eland Part Number	Description
A8DC5E-LJ6C	Cat 5E 568B LJ6C 37mm x 25mm x 20mm
A8DC6-LJ6C	Cat 6 568B LJ6C 37mm x 25mm x 20mm
