

Leaded Line Adaptors

Eland Product Group **ATA**

Application

Designed to convert RJ45 Sockets into standard BT-style Outlets. Available in PSTN, PABX and secondary formats, they replicate the standard BT line jack function, and are commonly known as 'voice baluns'.

Part numbers ATALJU-ADA-SEC, ATALJU-ADA-PSTN, and ATALJU-ADA-PABX are supplied with 6" tails for added flexibility.
